RE: Azeez Adeyemi TIAMIYU Application for Master of Science

I have known Tiamiyu for a period of more than six years as student and my supervisee in the Department of Forestry, Wildlife and Fisheries, Olabisi Onabanjo University.

Tiamiyu, had been exposed to top quality education at Olabisi Onabanjo University where she studied for and obtained her Bachelor's degree in Fisheries Management. During his course of study he took courses in communication skills under the general courses programme of the university with good grade. He writes and speaks English fluently which was the language and medium of instruction.

My personal contact with him made me adjudged him to be a very brilliant person, hard-working, contentious and pleasant to relate with. He is highly motivated in learning new things while under my mentorship. From my observation he readily takes on additional responsibilities without complaint.

His academic skill is undisputable as he scored grades above average in the courses examined in his undergraduate study. Tiamiyu is upright in character, and to the best of my knowledge is physically fit and emotionally stable. This has given him the confidence leverage to make a choice in the field of computer science.

If offered this admission opportunity he will be a student to watch out for in terms of academic performance.

I therefore enthusiastically recommend him for admission into your University.

Yours faithfully,

SULE, Shakiru Okanlawon *(PhD)*
